ABSTRACT

Approximately three-hundred and fifty periodical and book citations of works dating from 1930 to 1972 (the majority of which are recent) on international education are included in this select bibliography. The scope, involving many aspects of internationalism, is reflected by the topic headings: Universal Man; World Community; Implicit Culture; Ideology; Nationalism; Patriotism; Political Socialization; Perception and Communication; International Education: Philosophy, Policy, and Practice; General Curriculum Considerations; International Education: At the Elementary Level and At the Secondary Level; Operational Programs; Teacher Preparation; Prejudice; Pressure Groups; Other Cultures' Interpretations of International Education; Art; Academe Programs; The International Posture of the United States; The United Nations, and Miscellaneous Readings. Overall arrangement is topical. Within each of the eighteen sections, author entries, which include complete bibliographic information, are arranged alphabetically. (SJM)
